Bringing your visionary ideas to life
Delivering technology solutions to transform everyday experiences

A 100% wholly-owned subsidiary of Samsung empowering 200+ clients across 12 countries

As a true innovation partner, we work with our clients to understand ever-changing human needs and make technology more dynamic to address them.

Our expertise in moving from the physical to digital, backed by our teams’ competencies across technologies and domains, helps us craft products and platforms with a design-led approach. We chart your digital transformation through a clear roadmap to success.

To make technology more human, we take it beyond its superficial advancements. We ask what technology can do for you in creating people-first outcomes; we innovate to create solutions that change your end-users’ daily lives for the better.

We call it **HARMAN Life-ware**
What is HARMAN Life-ware?

HARMAN Life-ware is the technology that transforms people’s everyday lives. It is not just innovative software or new hardware, but rather solutions that bring them together with the human element at heart.

HARMAN DTS creates and delivers Life-ware to help you become an integral part of your end-users’ world. Human by design, these outcome based solutions are crafted to blend with people’s everyday lives and enrich them from within.

Bring immersive experiences to smart devices
Help people collaborate over vast networks
Make cities smarter for the digital consumer
Make virtual healthcare easy and accessible
Become an indispensable part of your end-users’ lives
The HARMAN difference

We partner with enterprises to design and deliver their digital journey with our end-to-end offerings.

End-to-end outsourced solutions
Custom solutions that bridge the world of OEM and software

Customized digital solutions
IP platforms that enable you to implement digital solutions rapidly

Product engineering services
Professional services that help you scale quickly with the right people and expertise

Our capabilities across verticals

**Telecom solutions for smarter connectivity**
- Unified Communications & Collaboration
- Network Services
- Silicon Design & Verification
- Smart Edge Devices
- 5G Applications & Services

**Industrial solutions for smarter and sustainable communities**
- Smart Grid
- Smart Buildings
- Smart Factories
- Smart Transportation
  - Aviation Gate Solution
  - Inflight Entertainment
  - Traffic Management & Smart Parking

**Healthcare solutions for better living**
- Digital Therapeutics
- Virtual care and Remote Patient Monitoring
- Connected Fitness
- Unified Patient Engagement and Gamification
- Care Solutions Modernization
- Care Analytics
